

## **PUBLIC NOTICE**

### **TIME RELEASE STUDY IN FIJI**

The Fiji Revenue and Customs Authority (FRCA) will be undertaking the Time Release Study (TRS) from **11<sup>th</sup> July to 25<sup>th</sup> July 2011** in Suva, Lautoka Seaport and Nadi Airport.

The TRS which was endorsed by Cabinet in February, 2011 will measure the whole process of clearance from the arrival of goods in Fiji until the release from Customs control. The study will not only cover Customs procedures but also of other parties such as Customs Brokers, Ports Authority and Other Government Agencies such as Biosecurity and Health. The objective of the study is to identify bottlenecks in the clearance process and propose measures to reduce the time required for the release of goods.

FRCA has designed a TRS Questionnaire that will be used in the duration of the study and incorporates all customs clearance processes including arrival of the vessel/Aircraft, registration of manifest, unloading of Cargo, documentary processing, intervention of OGA's and movement of cargo within customs control until its released.

Stakeholders' cooperation and commitment are kindly requested during the study.

For further clarification please liaise with TRS Coordinator - Mr. Chandra Naidu on telephone 3243178 or email [cnaidu@frca.org.fj](mailto:cnaidu@frca.org.fj).
