

## **FIRCA HOTLINE**

FIRCA has in place (since September 2006 ) a hotline for persons to provide information on breaches of the tax and customs laws. The hotline number is:

**0800 331 7070**

The number is a toll-free one where callers are only charged the cost of a local call from anywhere in Fiji. Currently, it is manned only from 8am to 4.30pm on Monday to Thursday and 8am to 4pm on Friday. Information can be provided anonymously and will be treated confidentially.

We urge members of the public to take advantage of this opportunity and provide us with relevant information. Such information may assist in detecting taxpayers (individuals or companies ) who are evading the payment of taxes and/or customs duties that are due to the Government. FIRCA has since its establishment in 1999 been collecting close to 90% of Government's total revenue, which in turn is used for the provision of services such as health, education, public utilities and security, to name a few. We need the public of Fiji's support to ensure the success of this initiative.
